

SHAZIA MUHAMMAD JAN

.NET DEVELOPER / SYSTEM DEVELOPER

PROFESSIONAL SUMMARY

Dynamic developer with internship experience at Vitec Actor SmartBook, where I independently designed a mobile ticketing app using Razor Pages API, C#, and .NET Entity Framework Core. I also developed a PDF converter API during another internship using C# and REST API. As a recent graduate in system development with a background in .NET and DevOps, I have hands-on experience in web app development and a solid understanding of CI/CD and automated workflows, though I've yet to apply these in practice.

I am passionate about learning new technologies, solving problems with creative solutions, and eager to apply my knowledge to grow as a developer and contribute to team success.

EXPERIENCE

.NET Software Developer, Full Stack(Internship)

February 2024 - May 2024 | Vitec Actor SmartBook, Gävle
